Go Offscript.

C A R E E R S

your path. your rules.

Pre-seed · Cambridge · 2026

Most students don't know where their script is going.

Go Offscript exists for everyone who was never handed the map

- your path
- your values
- your people

The Career Discovery Problems

Most students don't know where their career script is going

01

too late.

Career guidance arrives in final year right when critical deadlines have already passed.

02

too generic.

No tool connects your CV, values and personality into one honest, personalised picture.

03

too gated.

The right network gets warm intros. Everyone else cold emails strangers and hopes.

"the right guidance, from the right person, at the right time — simply doesn't reach the people who need it most."

Market Opportunity

500K+

Graduates enter the UK workforce annually

Source: HESA, 2023

£1.5B+

Global career coaching & guidance market

Source: BusinessResearchInsights, 2024

72%

of graduates feel unprepared for life after education

Source: YouScience Post-Graduation Readiness Report, 2025

why they fall short.

none of them connect identity → network → career outcomes.

Go Offscript wins on:

- ✓ Whole-identity profiling
- ✓ Values + CV + social signals
- ✓ Adaptive AI, not static
- ✓ Verified human mentors

competitive landscape.

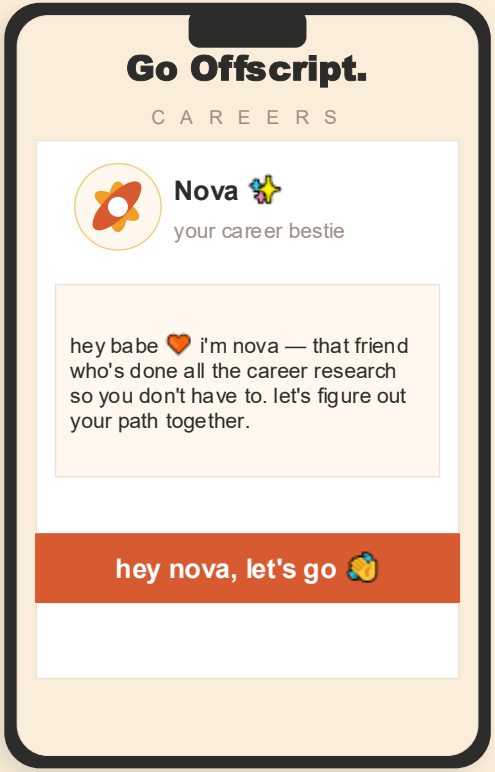
Go Offscript is the only platform that knows who you actually are — and builds your path from there.

meet Go Offscript.

one app. one bestie. your entire career path — personalised.



reads your CV

extracts your real skills automatically

reads your Social Media (optional) / Psychometric Tests Results

sees what you're actually into, not just what looks good

knows your values

what actually matters to you in a career

maps your path(s)

career possibilities ranked by how ready you are right now

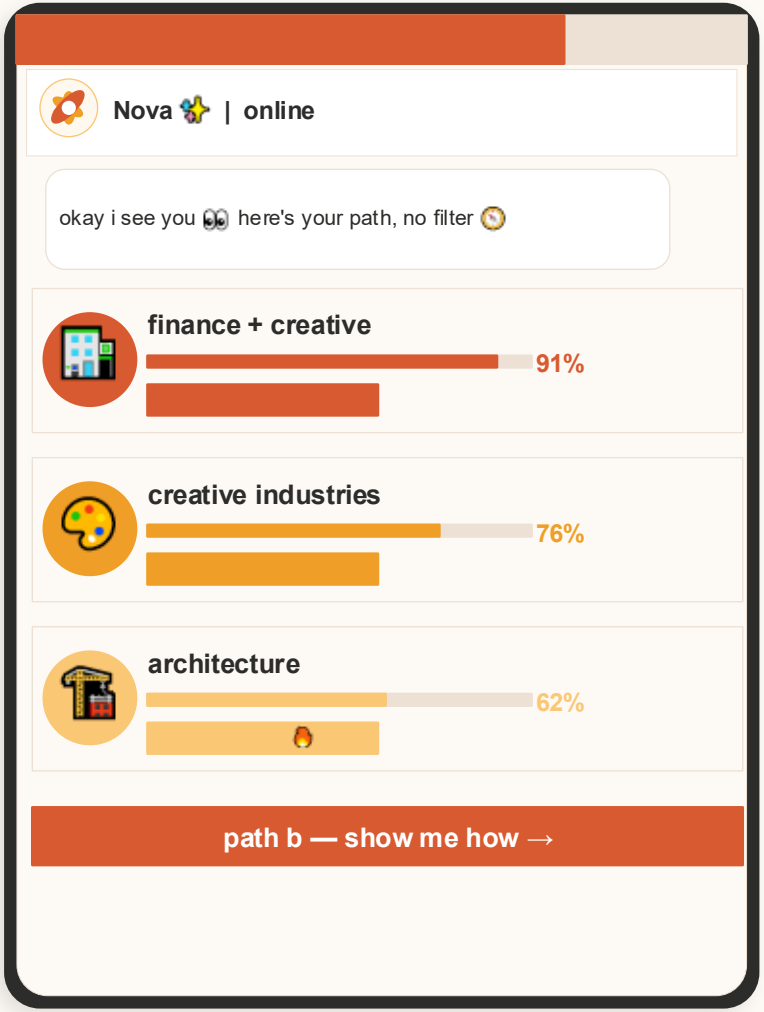
your path, not someone else's script.

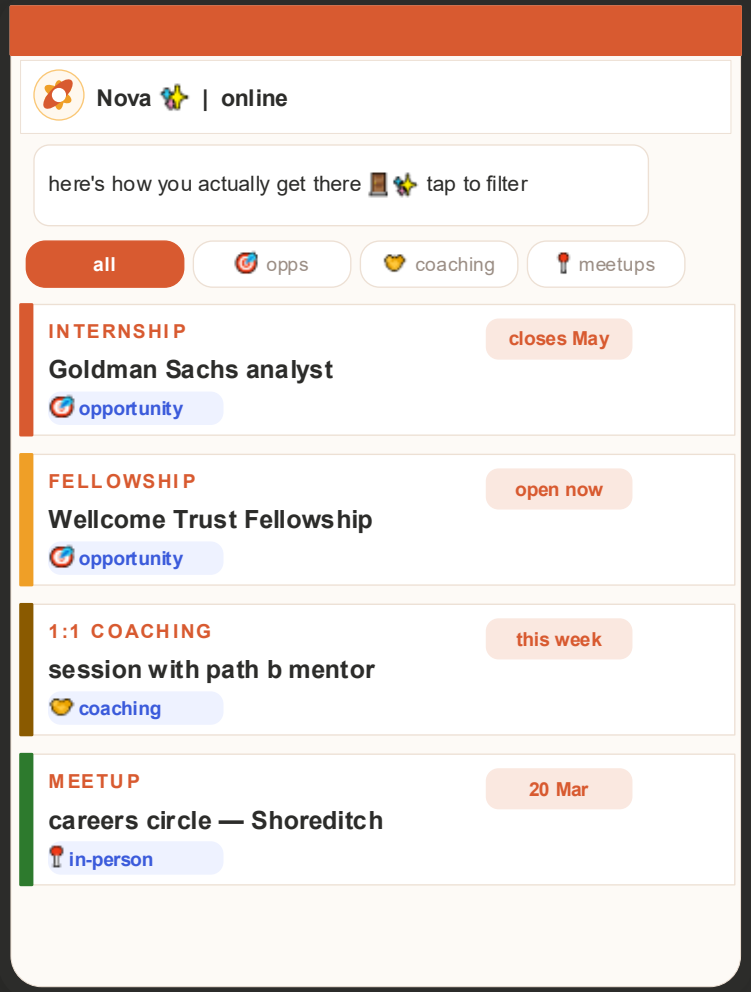
Nova analyses your CV, social signals and values to show you career paths ranked by how ready you are right now, then **spots the tensions** so you can make the right call.

91% match — finance + creative

passion signal 🔥 — architecture

tension spotted — creativity vs security





the insider knowledge. for everyone.

opportunities, coaching, and in-person meetups, filtered by what you actually need right now.

opportunities
internships, fellowships, accelerators, short projects, things to apply for with deadline reminders

coaching
1:1 and group sessions with humans who've navigated your exact path

meetups
in-person circles, workshops, socials : build real community

how we build trust.

mentor onboarding + validation : the quality layer that makes Go Offscript safe and credible.

step 1

Find mentors

outreach to university alumni, LinkedIn, community networks and people who apply directly.

→

step 2

LinkedIn verify

connect LinkedIn to confirm role, company and experience. automated in 30 seconds

→

step 3

Document proof

upload one proof document: offer letter, certificate, fellowship confirmation. human review within 48hrs

→

step 4

Profile goes live

verified badge applied. mentor appears in matched results for relevant users

→

step 5

Community rating

after every session, mentees rate the mentor. drop below threshold → profile paused automatically

this is our moat, not just a feature. verified human experience is what AI cannot replicate.

Go-To-Market Strategy

Beachhead market → Final year students + recent grads in Cambridge
Expansion market → UK-wide → Global English-speaking markets

Monetisation Strategy

1.

Free tier (B2C)
Users get:
- Career discovery tools
- Nova AI career copilot (basic)
- Community Discussions

2.

Premium (B2C)
- Full Nova AI career copilot
- Personalised Career Map
- Curated Opportunities matched to your profile

3.

Coach Marketplace
- Students book sessions with career coach
- Revenue:

15-20% commission per session

4.

University Partnership B2B
- University license the platform to support career discovery at scale
- £5K–£20K/yr per institution.

** 72% stat from YouScience survey of US high school graduates (2025) — UK university equivalent data shows similar trends via HESA Graduate Outcomes.*

Q2

beta launch target 2026

what's next

now	Show prototype to 20 more users. Iterate on Nova's voice and path accuracy.
Q2 2026	Beta launch — 50 users in London. Cambridge pilot university partnership.
Q3 2026	Expand to 5 Russell Group universities using Cambridge as the case study.
Q4 2026	500 active users. Series A conversations begin.

go off script exists for everyone who was never handed the map. we're changing that.

Appendix

why career discovery is broken

careers services

- Reactive support model
- 1 advisor per ~1000 students at most universities,
- Guidance start after students seek help

Source: NACE

LinkedIn

- Built for job listings, not career discovery
- Matches **skills to roles**, but not **values to paths**
- **Rewards experience you already have**

AI Tools

- Rely on static self reported inputs (resume, prompts)
- Generate advice but do not learn from user decisions over time
- Lack datasets connecting identity → **network** → **career outcomes**

psychometric tests

- One time personality snapshot
- Not linked to real career paths, networks or outcomes

none of them know who you actually are.

go off script does.

how it works

5 steps. no patience required.

1 upload your CV

Nova extracts your skills instantly

→

2 share your world

TikTok, Instagram, YouTube — or your personality test

→

3 name your values

what actually matters to you in a career

→

4 see your path

career matches ranked by fit + Nova ***spots your tensions***

→

5 find your way in

opportunities, coaching, meetups : filtered for you

Nova guides you through every step — like texting a friend who happens to know everything about careers.
